

## ***Certificate of Reference***

Domineque Hone is a responsible and experienced dog handler who has a broad understanding of individual breed characteristics and associated requirements. She has worked at length with shelter dogs both here in Australia as well as overseas and as a result has a great understanding of "special needs dogs".

Domineque also works with dogLOGIC dog training assisting in the running of our Puppy Pre-Schools. This involves teaching such things as how dogs learn coming when called, walking nicely on lead, jumping up and simple manners etc. The method of training is positive reinforcement and is based on rewarding the desired behaviour and motivating the dog so that they enjoy the training sessions. In this role, she is a competent and effective teacher.

We have always found Domineque to be not only enthusiastic and passionate about working with dogs but also patient and thoughtful about her charges.

We would therefore have no hesitation in recommending Domineque and her dog walking services.

Please don't hesitate to contact either of us at any time if we can be of further assistance in this situation.

Regards,
